The reasons for and the benefits of the proposed A Share Offering are as follows:

- (i) as the largest private psychiatric healthcare group in the PRC, the health facilities owned by the Company, and the Company's patients and business partners are all located in mainland China. Through a domestic issuance and listing of A Shares and the realization of the listing statuses in both the PRC and Hong Kong markets, the reputation and influence of the Company would be further enhanced. Meanwhile, expanded coverage and continuous reports of the Company as a dual-listed company from the domestic investment community and social media will further enhance the Company's brand image and strength as well as its reputation and influence.
- (ii) as China continues to push forward the development strategy of "Healthy China (健康中國)", mental health, psychosocial service system and elderly care will become the focus of people's livelihood. The funds to be raised by the proposed A Share Offering will provide financial resources for the Company to further enhance the medical technology of the Company and optimize medical equipment and environment to provide better medical services to patients, if it continues to utilize the proceeds from the proposed A Share Offering as stated in this circular.
- (iii) enhancing the liquidity of the Domestic Shares, which will further enhance the Company's growth potential. After the completion of the Offering and Listing, the Company's share capital will be enlarged compared with that before the offering, and the net asset size of the Company will increase to a certain extent after the proceeds are in place. The proceeds from the Offering and Listing will be used for the development of the Company's principal business, and the funding raising plan has been substantiated in detail by the Board, which is in line with the development plan of the Company and the development trend of the industry. As it takes some time to construct and implement the projects funded by proceeds, when the Company's share capital and net assets increase and the investment projects to be funded by proceeds have not yet realized profit, the immediate returns such as earnings per share and return on net assets will decrease to a certain extent if net profit does not realize growth accordingly after the offering.

In order to effectively reduce the impact of the dilution of immediate returns by the offering, the Company will take the following remedial measures on returns to shareholders diluted as a result of the offering in accordance with the relevant provisions of the Opinion of the State Council on Further Facilitating the Healthy Development of the Capital Markets (Guo Fa [2014] No. 17) (《國務院關於進一步促進資本市場健康發展的若干意見》(國發[2014]17號)), the Opinion from State Council General Office about Further Strengthening the Work of Protecting the Legal Interests of Minority Investors in the Capital Markets (Guo Ban Fa [2013] No. 110) (《國務院辦公廳關於進一步加強資本市場中小投資者合法權益保護工作的意見》(國辦發[2013]110號)) and the Guiding Opinions on Matters Relating to the Dilution of Current Returns as a Result of Initial Public Offering, Refinancing and Major Asset Restructuring (CSRC Announcement [2015] No. 31) (《關於首發及再融資、重大資產重組攤薄即期回報有關事項的指導意見》(證監會公告[2015]31號)) issued by the CSRC.

After the completion of the Company's initial public offering and listing, the Company's total assets will significantly increase, its risk resistance capacity and comprehensive strength will be significantly enhanced, and its market value will be significantly increased. Leveraging the capital market and good development opportunities, the Company will continue to expand the scale of the Company's principal business, capitalize on the Company's advantageous position in the field of private psychiatric specialized hospitals, and promote the Company's sustainable, healthy and stable development.

Each of the Directors and senior management of the Company have made the following undertakings to the public investors to make sure the Company's remedial measures for returns will be effectively implemented:

- “1. I shall not direct benefits to other entities or individuals at nil consideration or on unfair terms, nor otherwise prejudice the interests of the Company.

If the Company needs to adjust the profit distribution policy due to significant changes in the external environment or the Company's own operating conditions, the adjusted profit distribution policy shall not violate the relevant regulations of the CSRC and the stock exchange, and the proposal to adjust the profit distribution policy shall be considered by the Board of the Company and then submitted to the general meeting of the Company for consideration and approval by way of special resolution.

The Plan shall take effect and be implemented from the date of the Company's initial public offering and listing upon approval by the general meeting of the Company.

In order to ensure that the share price of the Company will be at a reasonable price upon listing and to safeguard the interests of Shareholders of the Company, the Board of the Company has formulated the Price Stabilization Plan for Three Years Following the Initial Public Offering and Listing of RMB Ordinary Shares (A Shares) on the ChiNext Market in accordance with the requirements of the Opinions of the CSRC on Further Promoting the Reform of New Share Offering Scheme (CSRC Announcement [2013] No. 42) (《中國證監會關於進一步推進新股發行體制改革的意見》(中國證監會公告[2013]42號)) and other documents. Its details are as follows:

If, within 3 years from the date of listing of the Company's shares, the closing prices of A Shares of the Company for 20 consecutive trading days are lower than the latest audited net assets value per share, and under the laws, administrative regulations, departmental rules, regulatory documents and regulations issued by securities regulatory authorities, both the Company and relevant parties satisfy the requirements for acts that will result in changes to the share capital, such as the repurchase of shares and the increase of shareholding, the Company and relevant parties shall implement relevant share price stabilization measures.

The Company and related entities will initiate a plan to stabilize share price in the following order:

1. The repurchase of Shares by the Company for stabilizing share price shall comply with the Administrative Measures for the Repurchase of Public Shares by Listed Companies (Trial) (Zheng Jian Fa [2005] No. 51) (《上市公司回購社會公眾股份管理辦法(試行)》(證監發[2005]51號

2. Procedures for the repurchase of shares by the Company

In the event that conditions for initiating measures for stabilizing share price are met, the Company will convene a board meeting within 10 days and the Board will make a resolution on the implementation of the share repurchase, which must be passed by more than half of all Directors. After the resolution is passed by the Board, it will be submitted to the general meeting for approval and the corresponding announcement procedure will be performed.

The Company shall convene a general meeting within 30 days from the date on which the resolution is passed by the board of directors to consider the proposal of implementing the share repurchase. The resolution relating to the implementation of repurchase of shares at the general meeting of the Company shall be subject to approval by more than two-thirds of the voting rights held by the shareholders present at the meeting.

After the general meeting of the Company has approved the proposal of implementing the share repurchase, the Company will perform the corresponding obligations such as announcement, filing and notification to creditors in accordance with the law. The repurchase will be carried out in accordance with the price range and period as stipulated in the proposal of implementing the share repurchase as passed and resolved, provided that the statutory conditions are met.

3. Unless the following circumstances arise, the Company will repurchase shares within six months from the date of the resolution of the general meeting, and the number of shares repurchased will not exceed 2% of the total number of A shares of the Company prior to the repurchase: (1) by implementing the share repurchase, the closing price of the A shares of the Company for three consecutive trading days has been higher than the latest audited net assets per share of the Company; (2) continuing share repurchase will result in the Company's failure to satisfy the statutory conditions for listing.
4. After the completion or termination of the implementation of a single share repurchase, such repurchased Shares of the Company shall be cancelled with 10 days from the date of completion or termination, and the capital reduction process of the Company shall be completed in time.

1. The increase of shareholding by the controlling shareholders of the Company shall be in compliance with the Company Law, the Securities Law, the Administrative Measures for Takeovers of Listed Companies and other laws and regulations, as well as departmental regulations and regulatory documents relating to the increase of shareholdings by shareholders of listed companies.

Under the premise that the increase of shareholding in the Company by controlling shareholders will not result in the Company failing to satisfy statutory listing conditions or will not trigger tender offer obligation of controlling shareholders, if (1) the Company fails to implement the share repurchase or the share repurchase resolution is not approved at the general meeting of the Company; (2) the Company has implemented the share repurchase plan but still fails to meet the condition of “the closing price of the Company’s A shares for 3 consecutive trading days has been higher than the latest audited net assets per share”, the controlling shareholders will increase shareholding in the Company subject to compliance with the Administrative Measures for Takeovers of Listed Companies and the relevant regulations of the CSRC.

2. Where the Company does not implement the share repurchase plan due to the circumstances in (1) above, the controlling shareholders will submit a plan to increase its shareholding to the Company and the Company will announce the plan within 30 days from the date when the conditions for initiating measures for stabilizing share price are met or the resolution not to implement the share repurchase plan is made at the general meeting of the Company.

Where the Company has implemented the share repurchase plan but still fails to meet the conditions in (2) above, the controlling shareholders will submit a proposal to the Company to increase shareholding in the Company within 30 days from the date of completion or termination of the Company’s share repurchase plan and the Company will make an announcement.

3. After fulfilling the corresponding obligations such as announcement, the controlling shareholders will implement the increase in shareholding in accordance with the price range and period stipulated in the shareholding increase plan when the statutory conditions are satisfied. The controlling shareholders will implement the plan to increase the shareholding in the Company within six months from the date of announcement of the shareholding increase plan, and the number of shares to be increased will not exceed 2% of the total number of A shares of the Company, unless the following circumstances occur: (1) by increasing the shareholding in the

Company through acquiring shares, the closing price of the A shares of the Company for three consecutive trading days has been higher than the latest audited net assets per share of the Company; (2) continuing to increase the shareholding in the Company will cause the Company not meeting the statutory listing conditions; (3) continuing to increase their shareholding will result in the controlling shareholders being required to fulfill their obligation to make a tender offer and the controlling shareholders have not planned to implement the tender offer.

-
1. The increase of shareholding in the Company by directors and senior management of the Company shall be in compliance with the Company Law, the Securities Law and other laws and regulations as well as departmental regulations and regulatory documents relating to the increase in shareholdings by directors and senior management of listed companies.

After the completion of the proposal of increase of shareholding by the Company's controlling shareholders, if the Company's share still not yet fulfills the condition of "the closing price of the Company's A shares for three consecutive trading days has been higher than the latest audited net assets per share", and the increase of shareholding in the Company by directors and senior management will not cause the Company to fail to meet the statutory listing conditions or cause the controlling shareholder to fulfill its obligation to make a tender offer, the directors or senior management will increase the shareholding in the Company within 90 days after the completion of the implementation of the plan to increase shareholding in the Company by controlling shareholders.

2. When implementing the aforesaid plan to stabilize the share price of the Company, the funds used by the directors or senior management to increase their shareholdings shall not be less than 10% of their total after-tax remuneration received by them from the Company in the previous year, and the funds used to increase their shareholdings in a year shall not exceed their total remuneration received by them from the Company in the previous year; upon completion of the increase of shareholding, the shareholding distribution of the Company shall comply with the listing conditions, and the act of increasing shareholdings and information disclosure shall comply with the Company Law, the Securities Law and other relevant laws and administrative regulations.

-
3. Any increase in the shareholding of the Company by a director or senior management shall terminate when one of the following conditions is met: (1) by increasing the shareholding in the Company, the closing price of the Company's A shares for three consecutive trading days has been higher than the Company's latest audited net assets per share; (2) Continuing increase of shareholdings will result in the Company not meeting the statutory listing conditions; (3) Continuing increase of shareholdings will lead to an obligation to make a tender offer which they have no plan to execute.
 4. For the newly appointed directors and senior management of the Company in the future, the Company will not appoint them until they have made undertakings to fulfill the corresponding commitments already made by the directors and senior management at the time of the issuance and listing of the Company and signed the corresponding written letter of undertaking.
-

After the implementation of the Company's share price stabilization measures, if the share price of the Company again triggers the conditions for initiating the share price stabilization measures, the Company, controlling shareholders, directors, senior management and other relevant responsible entities will continue to perform their relevant obligations in accordance with the above measures. In each natural year, the Company's obligation to compulsorily activate the share price stabilization measures shall be limited to once.

The Company will remind and procure its controlling shareholders, directors and senior management (including the existing directors and senior management of the Company, as well as directors and senior management who are yet to assume office when the undertakings under this plan are entered into or newly elected or appointed in the future) to strictly fulfill the relevant undertakings on share price stabilization measures already made by the Company, controlling shareholders, directors and senior management at the time of initial public offering and listing of the Company.

The Company shall voluntarily accept the supervision from securities regulatory authorities, stock exchanges and other relevant competent authorities on formulation and implementation of the share price stabilization plan and assume legal liabilities. If the Company, controlling shareholders, directors and senior management fail to take the above specific measures to stabilize the share price when the prerequisites for initiating the share price stabilization measures are met, the Company, controlling shareholders, directors and senior management undertake that they shall be subject to the following restraint measures:

-
1. If the Company violates its undertakings in the plan for stabilizing share price within three years after listing, the Company shall (1) publicly explain the specific reasons for not fulfilling the undertakings and apologize to shareholders and public investors at the general meeting of the Company and in the media designated by the CSRC, and make supplementary or alternative undertakings to safeguard the rights and interests of investors as far as possible; (2) if the failure to fulfill relevant undertakings results in losses to investors, the Company will compensate the investors in accordance with the law.
 2. If the controlling shareholders violates undertakings in the plan for stabilizing share price within three years after listing, the controlling shareholders shall: (1) publicly explain the specific reasons for not fulfilling the undertakings and apologize to other shareholders and public investors in the general meeting of the Company and in the media designated by the CSRC, and propose supplementary commitments or alternative commitments to protect the rights and interests of investors as far as possible; (2) the lock-up period of the restricted shares held by the controlling shareholders shall be extended by six months upon expiry, and the after-tax cash dividends received by the controlling shareholders from the Company in the latest accounting year shall be returned to the Company. If the cash dividends are not returned on time, the Company may withhold them from the cash dividends paid thereafter until the amount deducted cumulatively reaches the total amount of after-tax cash dividends received from the Company for the latest accounting year in which the obligation to stabilize the share price should be fulfilled.
 3. If the directors and senior management of the Company who have the obligation to increase their shareholdings in the Company violate the undertakings the plan for stabilizing share price within three years after listing, such directors and senior management shall: (1) publicly explain in the general meeting of the Company and in the media designated by the CSRC the specific reasons for not fulfilling the undertakings and apologize to shareholders and public investors, and make supplementary or alternative undertakings to safeguard the rights and interests of investors as far as possible; (2) the Company shall deduct 20% of the monthly after-tax remuneration of the relevant party from the month in which he/she fails to fulfill the undertakings to stabilize share price until the cumulative amount deducted reaches 20% of the after-tax remuneration already received from the Company in the most recent accounting year in which the share price stabilization obligation should be fulfilled.

This share price stabilization plan shall be effective and implemented from the date of the initial public offering and listing of the Company's shares after it is approved by the general meeting of the Company.

Die Eltern spielen eine entscheidende Rolle bei der Entwicklung des Kindes. Sie sind die ersten Lehrer und Vorbilder. Die ersten drei Jahre sind auch die Zeit, in der das Kind seine ersten Schritte macht und seine ersten Worte spricht. Es ist eine Zeit der großen Entdeckungen und der ersten Erfahrungen. Die Eltern sollten sich bewusst sein, dass ihre Handlungen und Reaktionen auf das Verhalten des Kindes einen großen Einfluss haben. Sie sollten versuchen, eine liebevolle und unterstützende Umgebung zu schaffen, in der das Kind sich frei entfalten kann. Die ersten drei Jahre sind auch die Zeit, in der das Kind seine ersten Freundschaften knüpft. Diese Freundschaften können für das Kind von großer Bedeutung sein. Sie helfen ihm, sich in der Welt zurechtzufinden und zu lernen, wie man mit anderen Menschen umgeht. Die ersten drei Jahre sind also eine Zeit der großen Chancen und der großen Verantwortung.
